

## Sentri™ end tidal CO<sub>2</sub> monitoring range

Masks and nasal cannula

Oxygen and Aerosol Therapy ▪ Variable Oxygen Concentration (Low Flow)

## Sentri™ end tidal CO<sub>2</sub> monitoring range

### Mask or nasal cannula the choice is yours

The Sentri product range is available as an adult mask and in three sizes of nasal cannula. Both options permit the sampling of exhaled carbon dioxide in non-intubated patients during the administration of supplementary oxygen.

There are also options available for connection to Microstream® capnography.

[Find out more](#)

### Nasal cannula available in three sizes

To accommodate a wide range of patients from infant to adult

#### Soft, curved prongs

#### Oxygen delivery and ETCO<sub>2</sub> sampling

#### Non-slip toggle

Provides a secure fit

Oxygen is delivered through one nasal prong and exhaled gas is sampled from the other. Nasal cannula may be more appropriate for paediatric patients when high oxygen flows may “dilute” the CO<sub>2</sub> sample and give a low (or no) value. A face mask may be more appropriate when the nares are occluded or obstructed.

## Sentri™ Intersurgical EcoLite™ mask kit

The Sentri Mask is an adult, medium concentration Intersurgical EcoLite oxygen mask with a monitoring line connector enabling a secure luer lock connection, the other end of which is connected to a capnometer. The Sentri mask is used for measuring end-tidal CO<sub>2</sub> (ETCO<sub>2</sub>) in expired gases while supplying oxygen to the patient.

### Welcome to the Comfort Zone

The unique design and materials used to manufacture the Intersurgical EcoLite mask provides improved patient comfort and a reduced environmental impact.

### Comfortable for the Patient

Improved patient comfort has been key to the development of the Intersurgical EcoLite mask. The latest manufacturing technology has enabled us to combine two non-PVC materials in the same product, the polypropylene material forming the body of the Intersurgical EcoLite mask is clear, lightweight and rigid enough to maintain the masks shape, whilst the second softer TPE material is utilised in the seal, which is in contact with the patient's face.

### Incurved nose seal

Conforms to different nose shapes designed to minimise the risk of oxygen entering patient's eyes

### Oxygen connector

### Multi-channel oxygen tube

Oxygen still flows even if tube is kinked

### Elastic can be positioned under or over the ears

Below ear position eliminates trauma to top of ears

### Soft face seals

Increased patient comfort

### New ETCO<sub>2</sub> monitoring line connector

For attachment of ETCO<sub>2</sub> monitoring line, providing a secure luer lock connection which can be rotated for optimal positioning

### Sentri™ Intersurgical EcoLite™ mask

With new ETCO<sub>2</sub> monitoring line connector

| Code    | Description   | Tube length | Box Qty. |
|---------|---|-------------|----------|
| 1141015 | Sentri Intersurgical EcoLite, adult, mask with tube   | 2.1 m       | 30       |
| 1142015 | Sentri Intersurgical EcoLite, adult, mask with CO <sub>2</sub> monitoring line and tube         | 2.1 m       | 30       |
| 1143015 | Sentri Intersurgical EcoLite, adult, mask with CO <sub>2</sub> monitoring line, filter and tube | 2.1 m       | 30       |

### Sentri™ Intersurgical EcoLite™ mask

With original ETCO<sub>2</sub> monitoring line connector

| Code    | Description  | Tube length | Box Qty. |
|---------|--|-------------|----------|
| 1142016 | Sentri Intersurgical EcoLite, adult, mask with CO <sub>2</sub> monitoring line for Microstream® capnography and tube         | 2.1 m       | 30       |
| 1143017 | Sentri Intersurgical EcoLite, adult, mask with CO <sub>2</sub> monitoring line for Microstream® capnography, filter and tube | 2.1 m       | 30       |
| 1143018 | Sentri Intersurgical EcoLite, adult, mask with CO <sub>2</sub> monitoring line, filter and tube with universal connector     | 2.1 m       | 30       |

### Sentri nasal cannula

| Code    | Description   | Tube length | Box Qty. |
|---------|---|-------------|----------|
| 1144001 | Sentri, adult, nasal cannula with curved prongs and tube  | 2.1 m       | 50       |
| 1144002 | Sentri, adult, nasal cannula with curved prongs, CO <sub>2</sub> monitoring line, filter and tube                                   | 2.1 m       | 40       |
| 1144005 | Sentri, paediatric, nasal cannula with curved prongs and tube   | 2.1 m       | 50       |
| 1144006 | Sentri, paediatric, nasal cannula with curved prongs, CO <sub>2</sub> monitoring line, filter and tube                              | 2.1 m       | 40       |
| 1144009 | Sentri, infant, nasal cannula with curved prongs and tube   | 2.1 m       | 50       |
| 1144010 | Sentri, infant, nasal cannula with curved prongs, CO <sub>2</sub> monitoring line, filter and tube                                  | 2.1 m       | 40       |
| 1144015 | Sentri, paediatric, nasal cannula with curved prongs, CO <sub>2</sub> monitoring line for Microstream® capnography, filter and tube | 2.1 m       | 40       |
| 1144016 | Sentri, infant, nasal cannula with curved prongs, CO <sub>2</sub> monitoring line for Microstream® capnography, filter and tube     | 2.1 m       | 40       |
| 1144017 | Sentri, adult, nasal cannula with curved prongs, CO <sub>2</sub> monitoring line for Microstream® capnography, filter and tube      | 2.1 m       | 40       |
